	1100x1100	580	500	1100
	1200x1200	580	600	1200

All shower screen has TWO glass shelves at the position of 1600mm from the Floor. All the

CONTACT US FOR CUSTOM SIZE SHOWER SCREEN

WALL TO WALL SHOWER SCREEN

To make a shower screen like the photo on the right, you need to measure the size (N) between the wall AFTER tile. Then you can choose different size from each panel on the table above to suit your size. **BUT remember to deduct 10mm gap for hinge or bracket from wall to wall size.**

Example	1500mm between wall after tile, i.e. N = 1500mm
	Deduct 10mm gap for hinges and bracket, i.e. $1500 - 10 = 1490\text{mm}$ (1490mm is the
	So we can use 580mm Door(panel A) + 470mm (panel B) + 440mm (panel C)
	OR use 650mm Door(panel A) + 400mm (panel B) + 440mm (panel C)

Note: Door will hinge on 470mm panel or 400mm panel on this case. You can use only two

SQUARE SHOWER SCREEN

To make a shower screen like the photo on the right, you need to measure the size from wall to outside of the glass of both side AFTER tile, the door side (X) and the panel C (Y). Then you can choose different size for panel A,B and C according to the photo. **BUT you need to deduct 20mm from the door side for gap and thickness of the glass.** You can swap the position of panel C and panel A+B to suit your bathroom.

Example	970mm X 750mm Square shower screen and Door at 970mm side, i.e. X = 970mm
	So we can use 650mm Door (panel A) + 300mm (panel B) + 750mm (panel C)
If you can not find the perfect fit for your bathroom we still can CUSTOM MADE
