

We manufacture all of our cabinets from Australian made 16mm Thick White HMR (High Moisture Resistant) board sourced from Laminex Group at our factory. All board are assembled by Screw not only by staple guns, which is a proper way of doing cabinets. Edges are been done with 2mm PVC. All cabinets are custom make after order, which means we don't prepare extra cabinets in the factory and persuade customer to use.

FLOOR UNITS - KICKBOARD NOT INCLUDED

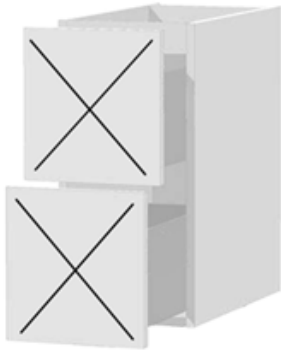

Floor Cabinet Carcase Only

Model: FLR
